INFORMATION

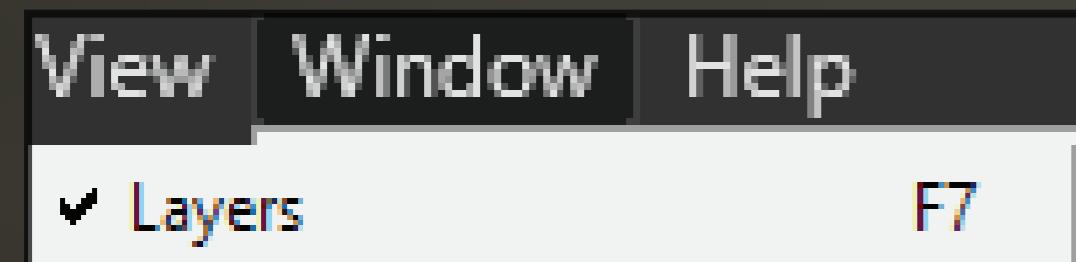

In the Main Folder you will find the items organised in different folders.

The files are found in the PSD and PNG formats.

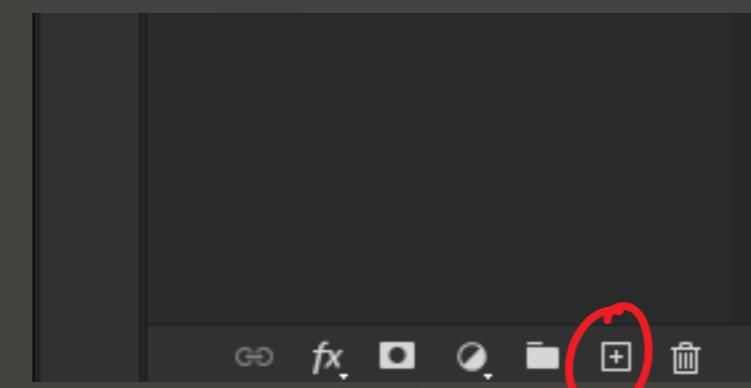

The PNG files are ready to use as they are.

The PSD file is an editable one where you will find all of the assets layered or grouped (by case).

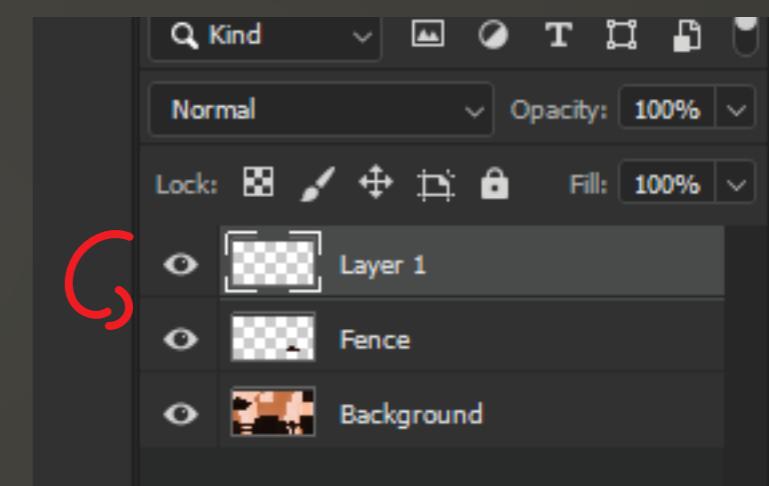

How To Work With the Layers

If you don't see the layer panel then go to:
Window- Layers

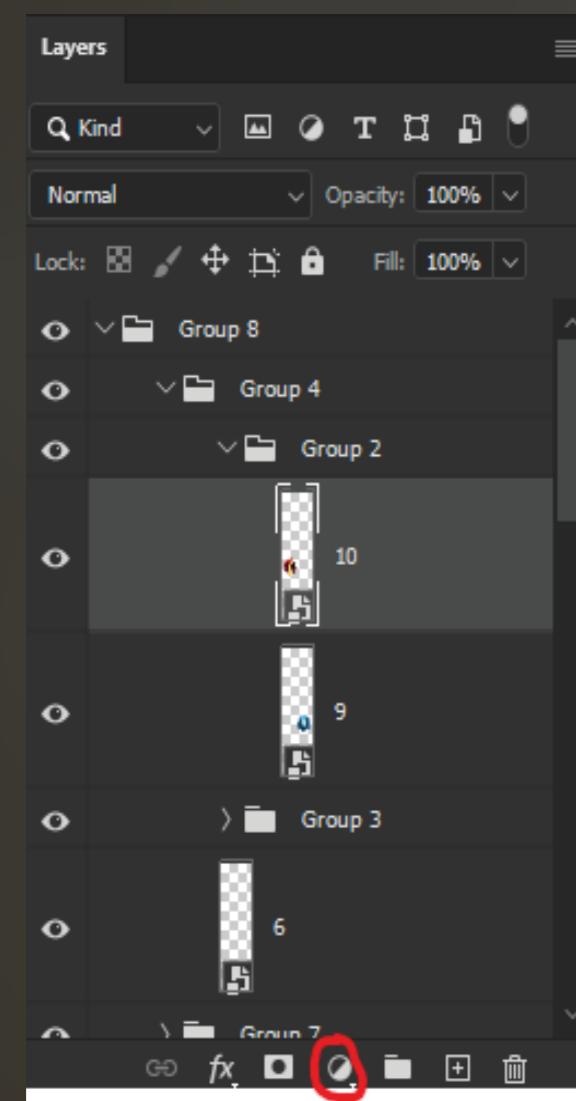

Click the "New Layer" icon
that you can find at the
bottom of the panel

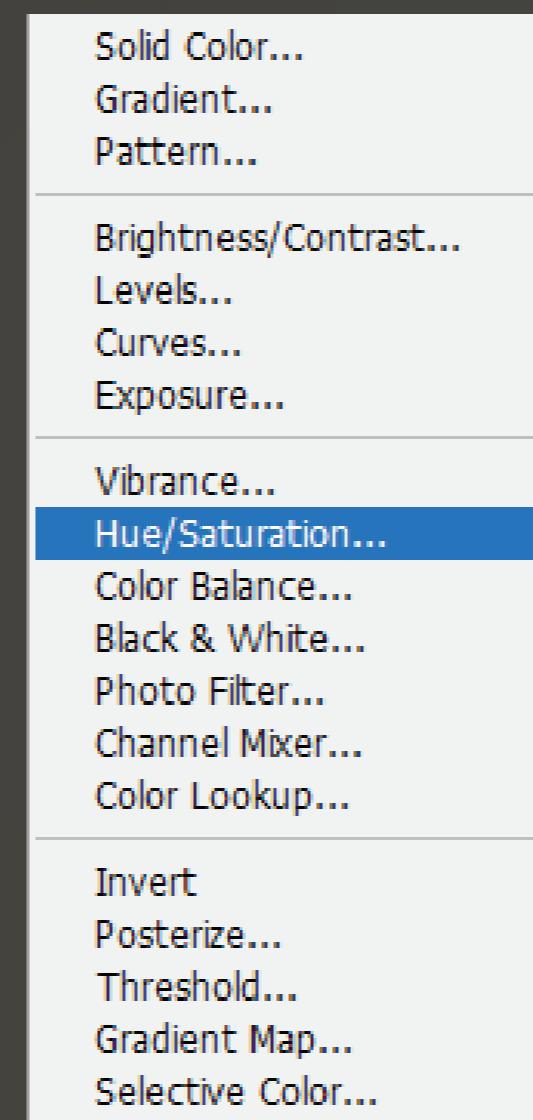

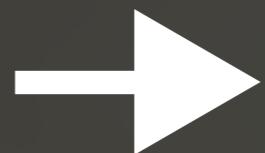

Drag and drop the layer
underneath the other layer

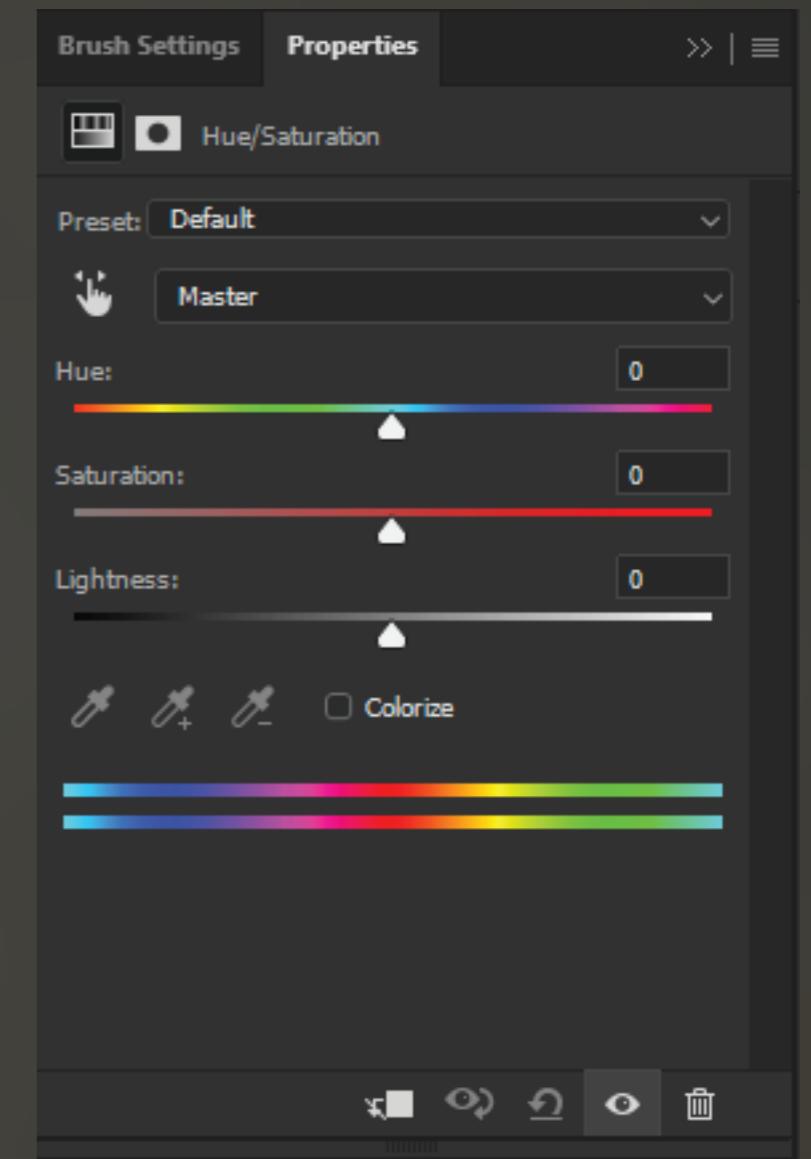

How To Change Colors

Create a new Adjustment Layer

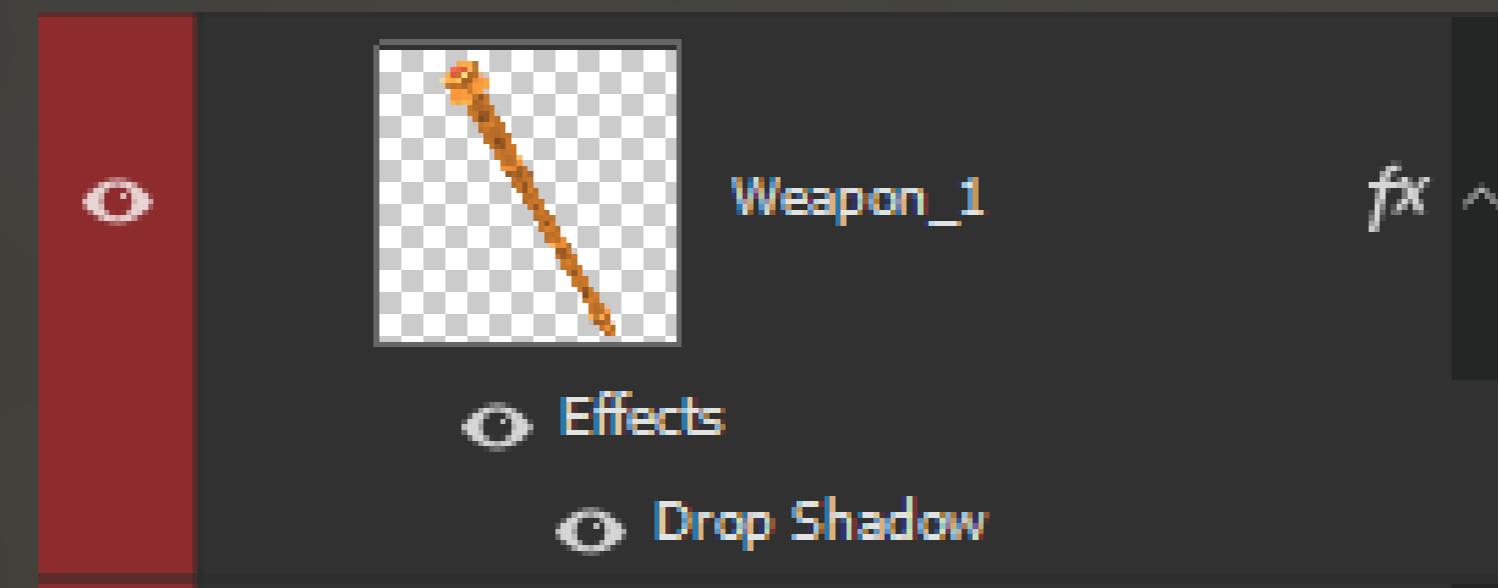

Select "Hue/Saturation"

Modify the slides to get
what color combination
you want

How to Edit the Layer Styles

Double-click on the layer and the
Layer Styles will open up.
